# HEATING

Phoenix offer designer towel warmers and stylish radiators that make a statement and add to the visual feast that your home has become, whilst also providing a practical heating solution.

## CH CENTRAL HEATING

All Phoenix radiators are designed to work in conjunction with hot water central heating systems and are clearly marked with the CH symbol in the brochure to denote this.

## DUAL FUEL

Many of the Phoenix radiators can be used with an additional heating element. Dual fuel radiators can be used either with the central heating system and the heating element switched off or with the heating element switched on if the central heating is not required in other rooms, this is called dual fuel.

## DIGITAL THERMOSTATIC DUAL FUEL

Phoenix have developed a wireless digital touchscreen controller that can be added to your dual fuel radiator to give ultimate control with the programable timer.

## PRE-FILLED ELECTRIC ONLY‡‡

All Phoenix pre-filled electric radiators are specially produced and factory filled with FERNOX heat transfer anti-corrosion fluid to maintain product quality for years to come.

All Phoenix pre-filled electric radiators can be fitted in conjunction with our wireless digital touch screen controller to give you ultimate control of temperature.

Each radiator style is clearly marked with the relevant symbols for compatible fuel types available. Product compatibility is the responsibility of the installer. All Phoenix radiators are tested at Δ60.

## CM COLOUR MATCHING

The Phoenix Colour Matching Radiators are specifically produced to match our range of Bathroom Furniture colours.

PVD
DURABLE
COATING

PVD utilizes a Titanium Nitride that provides an extremely durable and hard-wearing coating. PVD coatings possess a far higher resistance to wear than traditional gold plating. It is a fact that the PVD coating will stay on the product longer than traditional electro-plating and powder coating.

# DUAL FUEL

Phoenix have developed **dual fuel radiators** which can be used with both a central heating system and as a stand-alone unit.

**Dual fuel** and **electric only radiators** allow your radiator to be heated independently of the central heating system, providing warmth on tap in a cost effective and carbon-friendly manner.

To give you even greater flexibility and control, you can also add our wi-fi enabled **Digital Touchscreen Programmable Thermostatic Timer** to your dual fuel or all electric radiator.

All our electric radiators are supplied pre-filled with anti-corrosion fluid to maintain product quality for years to come. The Heating Element is supplied in the box and can be fitted on either side of the radiator. Product compatibility is the responsibility of the installer.

Each radiator style will be marked with the relevant symbols for fuel types available:
